International Conference and Exposition

SUSTAINABLE ENERGY INDEPENDENCE IN THE CARIBBEAN: MAKING IT HAPPEN

November 10 – 11, 2016

Lloyd Erskine Sandiford Centre
Bridgetown | Barbados

OBJECTIVES

- Explore the realities of energy markets across the Caribbean region.
- Synchronize energy policies with a focus on energy efficiency and renewable energy.
- Empower civil society and businesses to inform the structure of the sustainable energy market through a replicable model for associations.
- Explore the cross sectoral benefits of sustainable, affordable energy.
- Formation of a Caribbean Sustainable Energy Association.
