In preparing a book of this magnitude an intellectual debt is owed to many persons. Darrin Downes and Sasha Mapp, Senior Economist and Economist, at the Bank, respectively, did the tedious task of checking for internal consistency. Individual chapters benefited from the comments of Panicos Demetriades (University of Leicester), Paul Mizen (University of Nottingham), Andrew Downes (Sir Arthur Lewis Institute of Social and Economic Studies and a former Director of the Bank), Michael Howard (University of the West Indies and current Director of the Bank), Delisle Worrell (International Monetary Fund and former Deputy Governor of the Bank), Oral Williams and Wendell Samuels (International Monetary Fund), Patrick Kendall (Caribbean Development Bank), Winston Moore (University of the West Indies), Carlos Holder, Julia Weekes and Warrick Ward (Central Bank of Barbados) and Anthony Birchwood (Caribbean Centre for Monetary Studies). Finally, Mrs. Sonia Mayers, Administrative Assistant, Research Department, had the unenviable task of typing and putting the publication together. Many thanks are extended to all of them for their time, effort and support.
